

HIGHLY SUGGESTED METHOD OF PADDOCK PARKING AT VIR—UNUSED OPEN TRAILERS MUST BE PARKED OUTSIDE OF PADDOCK, ALONG THE POND OR FALSE GRID GRASS

Negative Ghostrider

OK

★ **Awesome !!!** ★

Trailer side edge must be on the white line **without** gap. There are 30 ft between the white lines. If you can fit more cars and trailers in than the suggested map NASA MA will love you even more. Please compress your paddock and if you have room for a lost HPDE driver offer it. Thanks!!!! NASA officials have the authority to require adjustment of paddock area.
